UTILITIES IN YOUR NEW HOME

The Utility Warehouse is our nominated supplier of utilities for our rental properties. They provide home phone, mobiles, broadband, gas and electricity to over 300,000 homes and businesses across the UK. They're part of a company called Telecom *plus* PLC; a British PLC, listed on the London Stock Exchange and licensed by Ofgem.

You probably haven't heard of them before. That's because they don't spend their customers' money on advertising. They rely on people like me to tell other people about them. And then they pass the money they save by not advertising on to their customers, by charging less for their services.

Here are some of the benefits:

- unlimited free calls to UK and international numbers
- best value broadband and phone packages
- savings of around £50 on your line rental
- cheaper gas and electricity
- the UK's best value mobile services
- 5% CashBack every time you go shopping and fill up the car
- unique customer discount plan
- exclusive membership discounts
- everything comes on one convenient monthly bill!

There's no minimum contract on most of the services they provide. So if you're not totally happy with the money you save and their award-winning UK-based customer service team, you can change to another supplier's higher prices.

Carters Rentals is an Authorised Distributor for the Utility Warehouse, so we will arrange as many services as you require, on line, this means that you don't have all the hassle of registering with a supplier yourself. Once registered Utility Warehouse will write to you and ask for your meter readings, you can leave the rest to us.

It will take me a few minutes to arrange it all when you come to our offices to sign your tenancy agreement. As a minimum we will need you to apply for gas and/or electricity supply.
